## MAKING PREPARATIONS FOR OBSERVING FOURTH

**Former Borough Officials to Participate in Events**

**SPEAKING IN THE PINES**

**Parade to Open Program--Will Also be Celebration of Incorporation Anniversary**

Final arrangements are being shaped up by the committee in charge for the Fourth of July celebration to take place on the evening of the Fourth. As previously announced the main part of the celebration will take place at the playgrounds in "The Pines." Not only will the day be an observance of Independence day but it will also be a celebration of the twentieth anniversary of the incorporation of the borough of Charleroi, which took place in the year 1892.

A parade will precede speaking at the playgrounds. Expected to participate in it are all the former and present members of council, school board, board of health, all the former burgesses and the present burgess, the fire department, preachers, and citizens generally. There will be boys and girls in line too. The police will lead the line of parade, which will be from Fourth street down McKean avenue to Sixth street, up Sixth to Washington avenue, out Washington to Fifth, up Fifth to Crest avenue and thence to the playgrounds.

During the afternoon a program of games and playground events will be held at the playgrounds. The children will perform these events.

Charles O. Frye, corresponding secretary of the Charleroi Business Men's Association has invited the former and present members of the various councils, school boards and boards of health to be present. Those who have served on these bodies are as follows, some of them still living in Charleroi, some of them dead and some of them living in other towns.

Former burgesses are, dating from 1892: W. H. Blythe (dead), John Beall, Monessen; Charles P. Speers, Speers; W. D. Pollock, Charleroi; John Gormley, Pittsburg; John Majors, Charleroi; James J. Hott, Charleroi; George W. Risbeck, present burgess.

Former and present members of the school board are: J. C. McKean, C. W. Cummings, L. N. Forsythe, C. M. Allen, N. M. Myers, Dr. J. K. Smith, W. F. Johnston, P. H. Kimmell, Dr. J. B. Barth, J. H. Bowers, George Woodhall, R. J. Whitehead, W. D. Pollock, J. S. Crawford, Dr. N. W. Patton, Dr. G. G. Crow, Frank J. John, S. K. Scott, Dr. T. M. Faddis, L. R. Bedsworth, J. F. Laird, C. G. Collins, J. A. Harshman, J. S. Elliot, Dr. H. J. Repman, J. M. Whitlatch, Dr. J. W. Manon, J. B. Cunningham, George Gunderman, Dr. A. O. Davis, J. M. Hill, Ira Nickeson, D. H. Glunt, Charles Wallgren, George B. Nelan, H. J. Booth, Dr. F. C. Stahlman, T. R. Eagye, R. C. Mountsier, Joseph Schoener.

Former and present members of council are: W. M. Murdock, F. B. Newton, John Hackett, E. E. Casebeer, John H. Bowers, William McMahon, J. E. McCardle, Robert McKean, Sr., Thomas Owens, Richard Majors, Geo. S. Might, M. Wilson, B. A. Zollner.

Continued on second page.

## Will Discuss New Measure

**Workingmen Meet at Harrisburg to Talk Over Compensation Bill**

Assemblyman William Feeney has gone to Harrisburg where he will attend a meeting of workingmen for the purpose of discussing the workingmen's compensation bill drafted by a specially appointed commission. The commission was scheduled to hold a meeting preceding that of the workingmen, to finally discuss the bill, and make whatever changes deemed necessary. Francis Feehan, who resigned as president of the Pittsburgh district United Mine workers last week and J. J. Cushing of Monessen, went to Harrisburg to attend the commission meeting, being members of that body.

## LAW TO BE ENFORCED ON FOURTH

**Burgess Risbeck Makes Proclamation Governing Celebration**

**NO BLANK CATRIDGES**

Burgess George W. Risbeck today issued his proclamation governing the Fourth of July celebration. It follows:

In view of the dangers attending the sale and use of explosives I hereby call attention of the public and dealers to the following State law enacted at a recent session of the Legislature, which will be rigidly enforced in Charleroi:

"It shall be unlawful for any person to set off, fire or make use of the purpose of explosion, any firecracker over six inches in length and any firecracker over three and one-half inches to six inches in length, over three-quarters of an inch in diameter and any firecracker to the length of three and one-half inches in length over one inch in diameter; or to set off, fire or explode in any county in the Commonwealth any firecracker or fireworks containing picric acid or picrates, dynamite or other high explosive compound; or to explode any blank cartridge, pellet or tablet, containing dynamite or other high explosive compound, when used in pistols, hollow canes, or any toy for explosive purposes."

The firing of revolvers or pistols using blank cartridges will not be permitted within the borough limits.

Dealers can assist in protecting the public from accident by refraining from selling firecrackers and explosives in advance, and all are hereby

(Continued on second page.)

## WILSON WITHIN 124 VOTES OF NOMINATION FOR THE PRESIDENCY

Governor Woodrow Wilson of New Jersey is this afternoon believed to be within hailing distance of the Democratic nomination for President, having on the forty-third ballot polled 602 votes, or just 124 less than the number required. He jumped from 494 by West Virginia, Virginia and Illinois throwing practically their entire support to him. Clark's vote this afternoon on the forty-third ballot was 327. Underwood was still claiming his hundred and some votes. Otherwise there was little change. In addition to the West Virginia, Virginia and Illinois delegation, Wilson received a number of additional scattered votes.

## MUST PAY POLE TAX WITHIN TEN DAYS OR HAVE POLES REMOVED

**North Charleroi Borough Makes Decided Move Towards Collection From Bell Telephone Company**

Action was taken by North Charleroi borough council at its regular monthly meeting Monday night that unless the Bell Telephone company pays its pole tax on poles in the borough within ten days the poles will be cut down. The tax which is at the rate of 50 cents per pole, amounts to \$200. There are at present 106 poles, it is stated in North Charleroi borough. The same trouble to some extent, it is stated was experienced in Charleroi borough. The bill in Charleroi is now paid.

It is claimed that the Bell Telephone company now owes for four years back at North Charleroi. Consequently after the clerk has sent them the due notice and the time limit has expired if the pole tax is not paid then the work of cutting down the poles will, it is stated, be gotten under way.

## NORTH CHARLEROI BOROUGH TO BEGIN PAVING WORK SOON

**Grades to be Established on Fourth and Other Streets--Council Takes Up Monthly Routine of Business**

At the regular monthly meeting of North Charleroi council on Monday evening a report was made that Borough Engineer Alexander Gray, of Charleroi would begin the work of getting the grade on Fourth street soon. It is the intention of North Charleroi to do some paving work, and Fourth street up past the new school building will be one of the first streets in line. Together with paving work, sewerage work will be done. As soon as the grades are established Engineer Gray will begin on the sewerage plan. When these plans are completed they have to be submitted to the State Health department. The North Charleroi sewer system will in a sense be made a continuation of the Charleroi sewer system.

The meeting was partly taken up with routine. A number of bills were ordered paid and reports were received.

## GRANT FRANCHISE AT BENTLEYVILLE

At a lengthy meeting of the Bentleyville council held Monday evening the franchise for the Bentleyville Power company and the franchise for the Bentleyville Street Railway company were passed on third reading. These two companies are in reality a part of the West Penn Electric company, which is planning a direct traction line from the Monongahela river to the county seat.

Considerable discussion preceded the action of council but there was little opposition to the granting of the franchises. The franchises for the trolley line provide for the building of a line along the main street of the town. It is provided in the franchise that the company must commence work within eight months and must have the line within Bentleyville completed within 20 months while the line to Monongahela must be completed within four years.

Ninety days are given the company for acceptance of the franchise and when the franchise is accepted the company must put \$1,000. Another \$1,000 must be put up when the actual work is started.

**THE COYLE THEATRE SAFEST HOUSE IN STATE CLEAN, COOL AND COMFORTABLE** 266-11

The Winter Club. of Charleroi will hold their weekly dance at Eldora Park tonight, Tuesday. Select. Wheeler's orchestra. 283-12

## NAME OFFICERS UNDER NEW CODE PROVISIONS

**Tough on Foreigner**

**Makes Complaint to Police He Was Thrown Out of Store When Wanting to Buy**

Alleging that he had been thrown out of a certain store because he wanted to buy a suit of underwear and wanted cheaper goods than the store keepers wanted to sell him, a foreigner appeared at the police station Monday night and asked that the store keepers be arrested. The store told is that the man went to the store and asked for underwear. He was shown something and a price put on it. It is said an argument followed and he claimed he was pitched bodily out on the sidewalk. It is probably that a hearing will be given before Burgess Risbeck.

## SISSON IN OFFICE TO YEAR 1913

**Dauphin County Court Decides Length of Auditor General's Term**

**NOMINATIONS LEGAL**

Judge Kunkel in the Dauphin county court Monday decided that the term of Auditor General A. E. Sisson will expire in May, 1913, and that therefore it will be lawful to elect his successor in November of this year.

The test case was brought to determine the effect of the constitutional amendments of 1909 so far as they related to an auditor general. These amendments changed the length of the term of the auditor general from three to four years. The question raised was whether the intention of the electors was to apply the lengthened term to the auditor general when they were approving the amendments.

The court decides there was no presumption that they so intended, but on the contrary the fact that a three-year term of the auditor general then elected would bring about the election of his successor at a time in accordance with the provisions of the constitutional amendments providing for the election of state officers in even numbered years indicated that the voters intended the present term to be three years.

The effect of the decision for legal today is to legalize the nominations of State Senator A. W. Powell of Pittsburg, the Republican nominee for auditor general and Robert E. Creswell of Johnstown, the nominee of the Democratic convention.

The case will be carried up to the Supreme court in order to remove all possible doubt as to the question.

**School Board Holds Election of Secretary and Treasurer**

**HEAR REPORT OF YEAR**

**Enrollment Went Up to High.**

**Water Mark--Many Employment Certificates Granted.**

Under the provisions of the new school code the school board held a meeting Monday evening for the purpose of electing a secretary and treasurer for the ensuing year. J. M. Hill was re-elected secretary of the board. Kerfoot W. Daly, cashier of the Bank of Charleroi was elected treasurer. The treasurer goes by rotation from bank to bank. The Charleroi Savings and Trust company or particularly E. W. Hastings, the cashier, was the former treasurer. The First National bank by the schedule will become the depository next June and Cashier R. H. Rush, the cashier treasurer.

By the new school code school boards in the second, third and fourth classes organize the first of December. The first Monday of July they are expected to hold a meeting and elect their secretary and treasurer. In district of the third and fourth classes the secretary and treasurer may be members of the board. Charleroi constitutes a third class district.

In addition to electing a secretary and treasurer, the school board received the yearly report of Prof. James G. Pentz, superintendent of Schools, and also the report for the final month of the year. Prof. Pentz reported that the total number of days attended by all pupils in the High School was 20,273 and in the grades 191,701. In the schools there were during last term, Prof. Pentz reported, 45 female teachers and four male. The average salary of the female teachers was \$54.80, and the male teachers \$110.55. The average salary of High School teachers was \$97.50 and of the grade teachers \$56.05. The total number of pupils enrolled at the close of the year was 2,963. The percentage of attendance during the year was 95%. Prof. Pentz granted 121 employment certificates during the year. Since January 1, 1909, he reported he has granted 361 employment certificates.

**Store Closed on the Fourth,**  
We will have on sale up till Wednesday evening at 8:30 ladies fine silk hose in black only at 19c. Kirk and Clark. 283-11

G. S. Might.....Charleroi Mrs. Belle Sharpnack.....Lock No. 4 T. Hixenbaugh.....Belle Vernon

One of the results of the curb market in Charleroi thus far is to stimulate an inquiry for land for farming and gardening purposes on the part of the people who see the possibilities in this line. Already a number of people have signified their intention of trying to get a piece of land and engage in gardening on an extensive scale, and it is probable that some real estate will change hands with this object in view before the season closes.

Already it has been demonstrated that the people of Charleroi will buy readily at the curb market if the produce is there to sell. Thus far there has not been anywhere near enough stuff to satisfy the demand. The curb market idea, however, has been an eye opener to many people, and it is readily seen that a good and paying occupation is open in the way of gardening, where the owner or renter of a piece of land can realize well on his efforts. He can apply his work constantly, and his market place is provided for him where people will come to him to buy instead of having to peddle the stuff from house to house, a tedious and uncertain process.

With the splendid market this town and community affords and the ease with which produce can be disposed of by means of the curb market, there ought not to be any available land idle next year. There is a bonanza in store for the producer who ventures into new and untried fields, and the greater the variety of products the greater will be the rewards.

In olden times when maritime commerce was the principal industry, prayers used to be offered in the most of the churches for those who "go down to the sea in ships." In this age of big business developments there are many industries more perilous, even than navigating the seas, but few people think anything about offering special prayers for the safety of the operatives of any particular industry.

Coal mining is perhaps one of the most perilous of modern industries. With the extension of this industry comes a ghastly toll of life and limb. In recent years the aggregate of killed and injured has reached such proportions as to demand more attention than mere prayers. Legislative action in both State and Nation has been put forth to safeguard the miner, and while the death list is still great,

there has been a material reduction in the mortality list. Five years ago nearly five out of every one thousand men employed in the mines were killed. Last year the mortality rate had been reduced to an average of nearly four.

While this reduction is slight, it is showing that the list of killed and injured can be reduced. It is along this line that efforts on the part of the leaders of mine workers are directed, and it is to be expected that further laws will be enacted that will make the industry less perilous. In old times the dangers of the sea could not be abated, but modern industry exacts a more ghastly toll in proportion than did the elements, and the melancholy part of it is that the most of it is preventable.

ELECTRIC SPARKS

It is probable that this government will give general satisfaction when there are enough offices to go around.

A man's political principles will stand a whole lot of trifling with, but don't monkey with his political prejudices.

From now on the office holder will put in his best licks to insure his meal ticket for the next four years.

An optimist has been defined as the man who, after falling down stairs gets up and says "I was coming down anyhow."

The word platform is to the political orator what the word surplus is to the bank cashier—something to be referred to in an awed tone of voice.

The best cook is one of the kind who probably cannot make mayonnaise, lobster Newburg or croquets.

Married men like to hear themselves talk, just the same as bachelors, but haven't the chance.

Many people who put on style put off creditors.

Of course women are admittedly as good as men and of course there is nothing they can not do as well as men, yet just the same the loyal fans hope they will not want to pitch for the home team in a close game.

Some women have the grace to not only think their husbands members of a certain political party, but the whole party. That's during the honeymoon.

There are a lot of marriages this year, but, so the brides say, not because it is leap year.

What chance has a self-respecting honest steam roller in a Democratic convention like the one at Baltimore.

There is a slight suspicion sometimes that performers are applauded because they are thorough not because of their ability.

That Flynn-Johnston pugilistic engagement on July 4 will have to go some to draw enough money to pay the guarantee.

PICKED UP IN PASSING

"There," said R. L. Barnhart, owner and manager of the Palace Theatre, pointing to a picture that was being exhibited on the screen Monday evening, "is a mechanical invention that has caused more law suits and litigation than any other thing of its kind."

The appliance in question was a device used in moving picture machines—the contrivance that moves the film before the lenses, holds it here the exact time required to give the motion effect, and then moves the next one up. The picture being shown which exhibited this device was a film titled "How Moving Pictures are Made and Shown." It was an Edison film and the pictures showed the great Edison plant where moving pictures and machines are manufactured, scenery and settings prepared and companies posed for the subjects. It was a most interesting exposition of the great Edison's laboratory and manufacturing plant, every process of which was shown in detail.

Speaking of the device which has caused so much litigation Mr. Barnhart said:

"Infringements on this patent have been fought through every court from the lowest to the highest and Edison, whose patent it is, has won out in every case. Today every moving picture machine in existence has to pay a royalty on this patent, for none can operate without it. My machine is not an Edison machine, yet I pay \$2 a week royalty for the use of that one small patent as does every other machine owner. Edison has just secured a reissue of the patent for another 17 years.

"I have seen it authoritatively stated that Edison's moving picture patents are his most profitable inventions. From these he derives an enormous and constantly increasing revenue. It may be interesting to know that the moving picture business in all its details ranks sixth among the most extensive industries of the world in the number of people employed, wages paid and revenue earned."

A young hopeful, aged four years, of the hill district, has from the time he could talk repeated that old-time juvenile prayer after his mother—every night on going to bed—"Now I lay me down to sleep." Recently the mother sought to have the boy commit the prayer to memory and to enlighten him as to its meaning. She told the lad that when he "prayed the Lord his soul to keep," it meant that he asked God to watch over him and keep him safe from all harm; and then when he "prayed the Lord his soul to take" that meant that he asked God to take him to heaven if he died.

"Now, Willie," said the mother, "I'm going to say the prayer and I want you to pay strict attention so that you can say it yourself, and I want you to remember what it means." And she repeated the prayer:

"Now I lay me down to sleep; I pray the Lord my soul to keep; If I should die before I wake, I pray the Lord my soul to take."

Willie began bravely, but in trying to remember the rhyme and meter of the prayer together with its meaning as interpreted by his mother, he got sadly mixed, and this was his version:

"Now I lay me down to sleep; I hope God will take care of me; If I should wake up before I die, I hope God will take me to heaven."

DECREASE IN MORTALITY RATE SHOWN BY REPORT OF MINES

That the high tide in the terrible death rate in American coal mines has been reached and passed is the confident belief of the officials of the United States Bureau of Mines.

Figures issued today by the Bureau shows that 2,517 men were killed in the mines last year as against 2,834 for 1910. This shows a reduction in the number of lives lost of 317 in one year's time. The death rate in 1910 was 3.91 men in every 1,000 employed. The rate in 1911 was 3.74.

Compared with 1907, the darkest year in the history of American mining, when 3,197 men lost their lives, 1911 shows a decrease of 680 in the number of men killed. It was following the record of this year that Congress authorized the government to begin investigations looking toward a reduction in the death rate and this was supplemented in 1910 by the creation of the Bureau of Mines.

Discussing the death statistics of the coal mines, Dr. Joseph A. Holmes, Director of the Bureau of Mines said: "While these latest mortality statistics in the coal mines of the country show slight improvement over the previous years, the United States has still no record to be proud of. In spite of the progress we have made we are still far below the standard of safety that we ought to have reached.

"It is of course comforting to know that for each year since 1907 there has been a decreasing number of men killed for every million tons of coal mined, and that for every life lost we have each year taken out of the earth more tons of coal. This is an improvement in the right direction. I hope that within the next year or two we will see as great an improvement in the reduction of the number of men killed per 1,000 men employed.

"The Bureau is co-operating with the State Mine Inspectors, the mine workers and with the mine operators in an endeavor to solve many of the difficult problems connected with the coal mining industry in this country. In this effort all the above forces are co-operating in good spirit in the determination to bring about better conditions. In this co-operative effort there is also serious need of the statesmen. No branch of industry in this country is on so bad an economic basis today as is the coal mining industry and this industry can never be placed on a satisfactory basis until, through important legislative changes, improvement in this economic basis is made possible."

It was early in 1908 that the Federal government began its investigation of the causes of mine disasters following the climax of accidents in 1907. The record for 1907 and the following years is as follows:

1907, thirty-one hundred and ninety-seven men killed, or 4.88 in every 1,000 employed;

1908, twenty-four hundred and forty-nine killed, or 3.64 in every 1,000 employed;

1909, twenty-six hundred and sixty-eight killed, or 4 in every 1,000 employed;

1910, twenty-eight hundred and thirty-four men killed, or 3.91 in every 1,000 employed;

1911, twenty-five hundred and seventeen men killed, or 3.74 in every 1,000 employed.

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. Forty years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

RUNNING SORES VANISH

San Cura Ointment Stops Terrible Skin Itch Like Magic—Cures Eczema, Salt Rheum and Heals Ulcers.

It's the most wonderful ointment on earth.

Thousands have blessed the day they first heard of San Cura for in thousands of homes in America, its wonderful quick acting healing power has freed from terrible affliction one or more persons.

Running sores or fever sores, no matter how long standing, no matter who says they can't be cured, will soon disappear when San Cura Ointment is used.

It cures so surely and without leaving a scar that W. F. Hennings and Piper Bros. guarantee it for any of the troubles mentioned above and for burns, bruises, scalds, frost-bitten feet, chilblains, boils, carbuncles, sore nipples, itching piles—money back if not satisfied.

San Cura Ointment is 25c and 50c a jar. Acquire a soft, velvety, clear skin by using San Cura Soap at all times, the best antiseptic soap, 25 cents. Thompson Medical Co., Titusville, Pa.

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only financially expensive, but it involves separation from home and friends. Some are benefited, but none can safely return. Eckman's Alternative is effective in leaving home necessary. For example: 231 S. Atlantic Ave., Haddonfield, N. J. "Gentlemen: In the fall of 1908 I contracted a very severe cold which settled on my lungs. At last I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was unable to take Eckman's Alternative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1909, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now five years since my cure has been effected, and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results." (Signed) W. M. TATEM. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and W. F. Hennings, Charleroi, Pa.

NEW PRESIDENT MAKES STATEMENT TO THE MINERS

Van Bitder Says He Believes Factional Differences Are at End

Van Bitner, who as vice president of the District No. 5, United Mine Workers of America, has succeeded to the district presidency by reason of the resignation of Francis Feehan takes a rather optimistic view of the internal strife among the miners of the Pittsburgh district. On Monday he issued the following statement:

We certainly were sorry to see Francis Feehan leave the presidency in the Pittsburgh district, but he did it believing it was for the best interest of the miners and those dependent upon the success of the United Mine Workers of America. I feel that the factional fight in our district is about at an end, because the rank and file are completely sick of it and are not going to stand for a few disgruntled office-seekers disputing the only weapon or defense they have. Of course, there are the arch-enemies of organized labor on the outside whom we will have to fight; this we deem our duty.

Progress must be made in the non-union fields and to that end myself and official colleagues will strive. I sincerely trust our membership will give me that same support they expect to receive from me. It will be our aim to strive to make the organization in the Pittsburgh district as strong as anywhere in the country; not along destructive lines, but by playing fair with those with whom we deal and adopting a constructive policy.

FIREWORKS DISPLAY TO BE PARK FEATURE

July Fourth entertainment is being arranged for Eldora Park and the day promises to be one of the most enjoyable of the season at the popular pleasure resort. There will be dancing all day and evening. In the evening a fireworks display will be set off.

WILL SPEND VACATION IN JEFFERSON COUNTY

Prof. and Mrs. J. G. Pentz and children will leave Wednesday morning for Reynoldsville, Jefferson county in the neighborhood of which they will spend their summer vacation. They will be gone about three weeks. During that time Prof. Pentz and his family will visit at Beech Woods and other points.

EVANGELIST NO MATCH FOR THE WILES OF CUPID

Van Bitder Says He Believes Factional Differences Are at End

As a climax to the four weeks evangelistic meetings which closed at Claysville Monday night the evangelist, E. H. Baker, Monday afternoon married Miss Cecelia Gantz, a member of the choir. Evangelist Baker went to Claysville heart-whole and with his mind concentrated on his work of preaching and exhorting.

He had been there but a few days when he met Miss Gantz, member of a prominent family, who was taking a leading part in the music. The evangelist promptly fell in love and proved as ardent in his wooing as he was in exhorting sinners to repentance. The acquaintance was barely a week old when the preacher had an unrecorded but fervent interview with Miss Gantz at the close of which she evidently said yes.

The marriage service was read Tuesday afternoon in the presence of a few friends by Rev. R. T. Lynd of the Claysville Presbyterian Church. The bride has been teacher in the schools of Homestead the last year. Mr. Baker is a native of England. For several years he has been conducting evangelistic campaigns in various parts of the United States.

Store Closed on the Fourth.

but will be open for business till 8:30 Wednesday evening. Don't fail to get your Fourth needs supplied at our money saving prices. Kirk and Clark. 233-tf

## MINCE PIE FINDS CHAMPION

Barring of Delectable Dessert From Female Seminars Held to Be Libel on Pastry.

Mince pie has endured from generation to generation and is not cast down. It has suffered long from the attacks of critics for whom it is strong meat, but it still is kind to those who love it and whom it loves. It gives and needs strength. We note without despondence the attempt in various New England colleges for girls to give this delectable dish a new bad name and hang it.

"It is ruinous for the complexion," says one preceptress. And another prates of technicalities of digestion. But at good old Wellesley they have mince three times a year "for the girls who cannot go home for the holidays," and there you have the whole case for the libeled pastry in a sentence. Mince pie is the home pie. It spells Thanksgiving and Christmas and a happy New Year and back-to-the-farm and good-for-the-old-folks and all sorts of things that keep together the families in which the nation is great.

Complexions! Why, the country was full of them before any food critic drew the hot air of life. And it will be full of them still when the last loaf of mince pie falls under the crust that mother makes. As for the girls' colleges—well, if the higher education is raising a parcel of daughters that cannot stand mince pie, it surely is not bringing up a band of sisters entitled to the ballot.—New York World.

#### His Little Peculiarity.

"One o' de mos' curiousest things about a fool," said Uncle Eben, "is de way he'll holler and git mad if you don't let him show off his misfortune."

#### Real Optimism.

A real optimist hopes for the best, even when his son marries a chorus girl.

#### Goose an Old Man's Guard.

When traveling along the road from Legare toward Kennelstonhead Cottages, Stinchill, Kelso, I met an old gentleman walking with the assistance of crutches, and a goose following as closely as possible behind him, avers a writer in the Scotsman. I stopped and spoke to the old man and the goose at once took up its position between his leg and the crutch on the side nearest to me. It then proceeded to make as much noise as possible, and assumed all the defiant attitudes imaginable.

On my approaching within a few feet of the old man it at once flew at me, and pecked, or rather bit, violently at my legs. I tried to keep it at bay by pushing it away with my feet, but that was of no avail, and I had ultimately to strike it over the bill with my walking stick to make it release its hold on my trousers. I found out later that it had bitten a considerable piece of skin off my leg. The old gentleman informed me that the goose follows him wherever he goes, and during stormy weather when he cannot venture outside it spends the day at the door of his cottage or else near by.

#### A FAIRY TRANSFORMATION

takes place in many a cheerless room when decorated with one or more of the many beautiful wall paper patterns on exhibition at Freeman's. The sun shines brighter, life is pleasanter when your dwelling is cheery and our decorations have driven away many a fit of the blues. See our new styles.

## TWICE-TOLD TESTIMONY

Charleroi People Are Doing All They Can For Fellow Sufferers.

Charleroi testimony has been published to prove the merit of Doan's Kidney Pills to others in Charleroi who suffer from bad backs and kidney ills. Last any sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting we produce confirmed proof—statements from Charleroi people saying that the cures they told of years ago were permanent. Here's a Charleroi case:

Mrs. M. E. Richards, 615 Washington avenue, Charleroi, Pa., says: "I gladly confirm all I said in my former statement given for publication in favor of Doan's Kidney Pills. Last summer I used several boxes of this remedy, procured at Piper Bros. Drug Store, when suffering from rheumatic pains and it promptly drove away my trouble. I have often recommended Doan's Kidney Pills and shall continue to do."

## THOUGHT HIS TIME HAD COME

Imagination Truly Is a Wonderful Thing, as Kansas Man Is Likely to Admit.

Every summer John Fisher, a Liberty grocer, and Frank Cockrell, a retired farmer, maintain a camp at the mouth of Shoal creek on the Missouri river, about 15 miles below Kansas City and four miles south of Liberty.

Last summer they were entertaining, among others, J. D. Taylor, a farmer of near Manola, about 65 miles northwest of Alberta, Canada. The hosts and their guests were grouped around a small camp fire, scantily attired and partaking of fried catfish with relish, when Taylor grabbed at his leg and arose to his feet with a howl that sounded like the siren of the Gunter.

"I'm a goner, boys," he groaned, as he hopped around on one leg, gripping the other powerfully with both hands and imploring someone between whiles to get a club and get busy. "There's a snake in my pants leg as big as my arm and it's squeezing and biting me to death."

Fisher grabbed one side of the trouser leg in question and Cockrell the other and they ripped with right good will, but no snake appeared. When Taylor was sans pants, however, they took the remnant from his hands, and closely merged with the interior was found the stringy remains of a small frog.

"And that's what imagination will do for you," said Taylor, as he hunted up a box and climbed upon it tailor fashion to finish his interrupted session with the fish.—Kansas City Journal.

## NOT DRAWN FROM FLOWERS

Perfumes Today Are Extracted From Almost Everything but Seemingly Natural Source.

There are few perfumes today that cannot be made from chemicals, synthetically, as the chemists call it. Formerly all perfumes were extracted from flowers, fruits, spices, woods or other vegetable and animal substances. The first perfume to be imitated was vanilla, in 1878. Heliotropine followed, but obtained by oxidation of a by-product of camphor.

Terpinol is one of the most freely used constituents of perfumes. This is a near relation of turpentine. With this a little oil and aquafortis a chemist can produce a perfume that can scarcely be distinguished from those exhaled by the lily of the valley, lilac and Cape Jessamine, varying according to the proportions in which the chemicals are blended.

Artificial violet is a combination of citral (an essence extracted from lemon), Indian yervaine, or lemon yervaine, with common acetone, a substance very like pyroligneous acid.

No chemist has been able to counterfeit musk, but a synthetic perfume called musk is made from toluene, a by-product of benzine and coal tar. This is changed to a complex carburet, treated with azotic and sulphuric acids, is diluted and sold as musk.

Most of the cheap perfumes are imitations and they are almost always inferior to the flower extracts. So it might properly be said that it is a wise flower that knows its own perfume.

#### Forced to Sacrifice Beard.

The Wisconsin farmer whom Judge Holman condemned, in lieu of a fine which he could not pay, to have his flowing beard cut off, may find consolation in the fact that a similar order deprived a man in New York of long and carefully cultivated whiskers a few days ago. The man is employed in a manufacturing concern where his duties bring him in contact with rapid moving machinery. The proprietor's little son, in a visit to the factory, stood near the machine which the bearded man was operating and asked: "Don't the hair ever get mixed up with the silk?" The operator simply smiled, but the father, realizing a danger, gave the man then and there the option of shave or discharge. He chose the former.

#### Drew the Line at Cats.

To the list of divorces for seemingly trivial causes—such as "cruelty in not taking me out riding," "cruelty in requiring me to sew on buttons," etc., has now been added a divorce granted to a man who charged his wife with "cruelty in keeping cats in the house," thereby preventing him from occupying his favorite chair. On the judge's inquiring, "Why didn't you put the cats out of the house?" the man answered, "My wife is a member of the Society for the Prevention of Cruelty to Animals, and I was afraid she would have me arrested."

#### Guess at Philanthropist's Identity.

John M. Longyear, of Brookline, is now thought by his friends to be possibly the mysterious contributor of \$2,500,000 to "Tech." Henry C. Frick, Thomas A. Edison and Andrew Carnegie are previous guesses. The list bids fair to resemble a directory of philanthropic multimillionaires. Mr. Longyear, who thus has greatness thrust upon him, made his money in ore and timber lands in Michigan and elsewhere in the west.

#### Worry.

"I can remember when you had to work eight hours a day," said the old-time friend.

"Yes," replied Dustin Stax; "things were different. Now I have to worry sixteen hours a day."

## SCARED THE GARRISON

MOVING PICTURE CAMERA IN MEXICO STARTED PANIC.

Soldiers Thought it a Machine Gun and Were Overjoyed When the American Photographer Made Clear Their Mistake.

An American camera man recently ventured into Mexico to take some pictures of Mexican scenery, together with a parade of a Mexican regiment. Mistaking him for an insurgent about to start another revolution by turning a machine gun on them, several hundred Mexican soldiers, comprising the garrison at Tia Juana, broke ranks while on dress parade and ran in every direction for shelter, says Photography.

Officers joined the privates in getting behind buildings and trenches, and the regimental bugler had hardly sounded the call to arms to repel the attack of the supposed invaders when the moving picture man, now thoroughly frightened himself, tucked his machine under one arm and started to run for the boundary line. He had gained the outskirts of the town when a Mexican officer ventured to snatch a look from his hiding place and, seeing the ground clear, ordered a charge with fixed bayonets. It took considerable prodding, however, to get the privates back into the ranks and the military formation.

The frightened operator was overhauled by mounted men, dragged back into town and taken before the commanding officer. The enraged soldiers wanted to make a target out of him then and there, but the officers prevailed upon them to let the regular military law take its course. The moving picture machine was carefully taken apart and searched for explosives. The camera man pleaded with the officers to let him go. He explained to the Mexicans that he was not a filibuster nor a soldier of fortune; that he was only working for a living. He went through a pantomime with the aid of a sheet on the wall to show the soldiers how pictures are taken for the nickelodeons in the United States.

Then a great light burst upon the intelligence of the commander in chief. He rapidly interpreted his discovery to his fellow officers and his privates. The moving picture man stood distrustfully by, not quite sure that he had yet made himself plain.

The soldiers were so overjoyed at the fact that they were to have been sent down into posterity by the moving picture route that the man was ordered to take their picture without fear of interruption. A brief examination, however, convinced the moving picture man that he could never accomplish the feat; but he feared to arouse the ire of the Mexicans, so he went through the motions of taking a real picture, while the soldiers marched back and forth within his range, drilled, fixed their bayonets charged upon imaginary foes, pitched their tents and went through every detail of war life in Mexico.

His arms were aching from turning the crank of his broken machine, and he would have ordinarily used up several miles of film, when the regiment came to attention and the commander stepped to the front and proudly doffed his cap.

That was the end. The picture man was loaded down with cigarettes and cigars and presented with a silk scarf by one of the officers. He refused an invitation to dine and hurried with an escort of honor to the boundary line, the men insisting on carrying his machine for him.

#### Dainty Tea Cakes.

Here are directions for making some dainty cakes for a home tea which are inexpensive and will be found delicious.

Beat two eggs to a froth in a cake bowl, add two cups of granulated sugar, one teaspoonful of vanilla extract, half a nutmeg grated, half a teaspoonful of salt, beat these to a cream, then add half a cupful of butter which is quite soft. Beat this well together with the other ingredients, then add a cupful of sweet milk, stir it well through the mixture, and last add two and a half cupfuls of flour sifted twice with three teaspoonfuls of baking powder and stir the whole to a smooth batter. Slightly butter the inside of your patty pans and put one generous tablespoonful of the cake batter in each patty and bake in a slow oven. This mixture will make over thirty little tea cakes. Cover the top of each with a frosting and put one blanched almond on the center.

#### Doing as the Romans Do.

One Christmas day Joseph II. and Gustavus III. king of Sweden, who had arrived in Rome the previous day, attended high mass at St. Peter's. The behavior of the emperor was particularly decorous, without affectation or hypocrisy. The king at first hesitated about kneeling, and asked the emperor what he should do.

"Do as I do," replied Joseph.

"But I am not of your communion," rejoined the other.

"Well," resumed the emperor, "believe what you will, but, as you came here of your own choice, you should not so as not to scandalize others."

Gustavus took the hint and knelt down.

#### Gradual Process.

Crimson Rambler—Taken off yer winter underwear yet, Bill?

Backdoor Bill—Partly! I took off a door-mat yesterday, but I'm still wear-

## He Wouldn't Advertise

Breathes there a man, with soul so dead Who never to himself hath said:

"My trade of late is getting bad, I'll try another eight-inch ad."

If such there be, go mark him well; For him no bank account shall swell;

No angels watch the golden stair To welcome home the millionaire

The man who never asks for trade By local line or ad. displayed.

Cares more for rest than worldly gain, And patronage but gives him pain,

Tread lightly friends; let no rude sound Disturb his solitude profound,

Here let him live in calm repose, Unsought except by men he owes

And when he dies, go plant him deep, That naught may break his dreamless sleep;

Where no rude clamor may dispel The quiet that he loved so well.

And when the world may know its loss, Place on his grave a wreath of moss,

And on the stone above, "Here lies A chump who wouldn't advertise."

Advertise and the world is with you! Don't and you'll be alone.

For the world today will never pay A Cent to the Great Unknown.

W. J. ALLEN, Duluth Minn

## Tested the Whole World Over

and through three generations Beecham's Pills are universally looked upon as the best preventive and corrective of disorders of the organs of digestion and elimination ever known. They give speedy relief from the headache, sour stomach, indigestion due to biliousness or constipation.

## BEECHAM'S PILLS

are no experiment. They are too well known for that; and their mild and gentle, but sure action on the bowels, liver, kidneys and stomach, too well approved.

If you are out of sorts take at once this famous remedy and you will endorse the good opinion of thousands—you will know why Beecham's Pills so deservedly

## Have Unequaled Reputation

Sold everywhere, 10c., 25c. The directions with every box point out the road to health.

# Publicity!

## THE PRIMER OF SUCCESS

Do you want a position?  
Do you want a girl?  
Do you want to rent your furnished room?  
Do you want to sell your house?  
Do you want to sell your eggs, poultry or live stock?  
Have you lost anything?  
Have you anything to trade?  
Do you want to sell your piano?

There are many who want to do one or the other of these things. Most of them don't know how to go about it. If they could only tell the people what they want they would be all right. If they could only let the people know without disclosing their identity that might be better still.

If you want to buy, sell or secure any of the above, or if you want to trade anything, did it ever occur to you that the best thing in the world to do is to use the Classified Columns of the Mail.

Why do we give you this advice? To make business for ourselves? Certainly! To help you? Just as certainly! We are the medium between you and what you want. You just place a cent-a-word advertisement with us and we spread this advertisement before Five Thousand People Every Day. That is the market with which we bring you into touch. Isn't the advantage of being placed in touch with 5,000 people worth this insignificant sum?

Try it, and you will reap the benefit of your advertisement a thousand fold

MAKING PREPARATIONS  
FOR OBSERVING FOURTH

Former Borough Officials to Participate in Events

## SPEAKING IN THE PINES

Parade to Open Program—Will Also be Celebration of Incorporation Anniversary

Final arrangements are being shaped up by the committee in charge for the Fourth of July celebration to take place on the evening of the Fourth. As previously announced the main part of the celebration will take place at the playgrounds in "The Pines." Not only will the day be an observance of Independence day but it will also be a celebration of the twentieth anniversary of the incorporation of the borough of Charleroi, which took place in the year 1892.

A parade will precede speaking at the playgrounds. Expected to participate in it are all the former and present members of council, school board, board of health, all the former burgesses and the present burgesses, the fire department, preachers, and citizens generally. There will be boys and girls in line too. The police will lead the line of parade, which will be from Fourth street down McKean avenue to Sixth street, up Sixth to Washington avenue, out Washington to Fifth, up Fifth to Crest avenue and thence to the playgrounds.

During the afternoon a program of games and playground events will be carried out at the playgrounds. The children will perform these events.

Charles O. Frye, corresponding secretary of the Charleroi Business Men's Association has invited the former and present members of the various councils, school boards and boards of health to be present. Those who have served on these bodies are as follows, some of them still living in Charleroi, some of them dead and some of them living in other towns.

Former burgesses are, dating from 1892: W. H. Blythe (dead), John Beall, Monessen; Charles P. Speers, Speers; W. D. Pollock, Charleroi; John Gormley, Pittsburg; John Majors, Charleroi; James J. Hott, Charleroi; George W. Risbeck, present burgess.

Former and present members of the school board are: J. C. McKean, C. W. Cummings, L. N. Foreythe, C. M. Allen, N. M. Myers, Dr. J. K. Smith, W. F. Johnston, P. H. Kimmell, Dr. J. B. Barth, J. H. Bowers, George Woodhull, R. J. Whitehead, W. D. Pollock, J. S. Crawford, Dr. N. W. Patton, Dr. G. G. Crow, Frank J. John, S. K. Scott, Dr. T. M. Faddis, L. E. Bedworth, J. F. Laird, C. G. Collins, J. A. Harshman, J. S. Elliot, Dr. H. J. Repman, J. M. Whitlatch, Dr. J. W. Manion, J. B. Cunningham, George Gundersman, Dr. A. O. Davis, J. M. Hill, Ira Nickerson, D. H. Glunt, Charles Waldgren, George B. Nelson, H. J. Booth, Dr. F. C. Stahlman, T. R. Egge, R. C. Mountsier, Joseph Schoener.

Former and present members of council are: W. M. Murdock, F. B. Newton, John Backett, E. E. Caseber, John H. Bowers, William McMahon, J. E. McCordle, Robert McKean, Sr., Thomas Owens, Richard Majors, Geo. S. Might, M. Wilson, B. A. Zollner.

Will Discuss  
New Measure

Workingmen Meet at Harrisburg to Talk Over Compensation Bill

Assemblyman William Feeney has gone to Harrisburg where he will attend a meeting of workingmen for the purpose of discussing the workmen's compensation bill drafted by a specially appointed commission. The commission was scheduled to hold a meeting preceding that of the workingmen, to finally discuss the bill, and make whatever changes deemed necessary. Francis Feehan, who resigned as president of the Pittsburgh district United Mine workers last week and J. J. Cushing of Monessen, went to Harrisburg to attend the commission meeting, being members of that body.

LAW TO BE  
ENFORCED  
ON FOURTH

Burgess Risbeck Makes Proclamation Governing Celebration

## NO BLANK CARTRIDGES

Burgess George W. Risbeck today issued his proclamation governing the Fourth of July celebration. It follows:

In view of the dangers attending the sale and use of explosives I hereby call attention of the public and dealers to the following State law enacted at a recent session of the Legislature, which will be rigidly enforced in Charleroi:

"It shall be unlawful for any person to set off, fire or make use of the purpose of explosion, any firecrackers over six inches in length and any firecracker over three and one-half inches to six inches in length, over three-quarters of an inch in diameter and any firecracker to the length of three and one-half inches in length over one inch in diameter; or to set off, fire or explode in any county in the Commonwealth any firecracker or fireworks containing picric acid or picrates, dynamite or other high explosive compound; or to explode any blank cartridge, pellet or tablet, containing dynamite or other high explosive compound, when used in pistols, hollow cases, or any toy for explosive purposes."

The firing of revolvers or pistols using blank cartridges will not be permitted within the borough limits.

Dealers can assist in protecting the public from accident by refraining from selling firecrackers and explosives in advance, and all are hereby

(Continued on second page.)

WILSON WITHIN 124  
VOTES OF NOMINATION  
FOR THE PRESIDENCY

Governor Woodrow Wilson of New Jersey is this afternoon believed to be within hailing distance of the Democratic nomination for President, having on the forty-third ballot polled 602 votes, or just 124 less than the number required. He jumped from 494 by West Virginia, Virginia and Illinois throwing practically their entire support to him. Clark's vote this afternoon on the forty-third ballot was 494. Underwood was claiming his hundred and some votes. Otherwise there was little change. In addition to the West Virginia, Virginia and Illinois delegations, Wilson has received a number of additional scattered votes.

MUST PAY POLE TAX  
WITHIN TEN DAYS OR  
HAVE POLES REMOVED

North Charleroi Borough Makes Decided Move Towards Collection From Bell Telephone Company

Action was taken by North Charleroi borough council at its regular monthly meeting Monday night that unless the Bell Telephone company pays its pole tax on poles in the borough within ten days the poles will be cut down. The tax which is at the rate of 50 cents per pole, amounts to it is said to about \$200. There are at present 106 poles, it is stated in North Charleroi borough. The same trouble to some extent, it is stated was experienced in Charleroi borough. The bill in Charleroi is now paid.

It is claimed that the Bell Telephone company now owes for four years back at North Charleroi. Consequently after the clerk has sent them the due notice and the time limit has expired if the pole tax is not paid then the work of cutting down the poles will, it is stated, be gotten under way. North Charleroi borough is determined.

This drastic action has been taken in similar cases in the past, the most notable one perhaps being the occasion when the Pennsylvania Railroad company cut the wires and poles of the Western Union Telegraph company that were on its right of way when the latter failed to remove the same on being notified to do so. Millions of dollars' worth of poles and wires were destroyed by this drastic action as the Pennsylvania section men cut wires and poles all over the system on the same date. The matter was threshed out in the courts, but the Pennsylvania Railroad people were sustained in their action, and the Western Union had to stand the loss.

NORTH CHARLEROI  
BOROUGH TO BEGIN  
PAVING WORK SOON

Grades to be Established on Fourth and Other Streets—Council Takes Up Monthly Routine of Business

At the regular monthly meeting of North Charleroi council on Monday evening a report was made that Borough Engineer Alexander Gray, of Charleroi would begin the work of getting the grade on Fourth street soon. It is the intention of North Charleroi to do some paving work, and Fourth street up past the new school building will be one of the first streets in line. Together with paving work, sewerage work will be done. As soon as the grades are established Engineer Gray will begin on the sewage plan. When these plans are completed they have to be submitted to the State Health department. The North Charleroi sewer system will in a sense be made a continuation of the Charleroi sewer system.

The meeting was partly taken up with routine. A number of bills were ordered paid and reports were received.

GRANT FRANCHISE  
AT BENTLEYVILLE

At a lengthy meeting of the Bentleyville council held Monday evening the franchise for the Bentleyville Power company and the franchise for the Bentleyville Street Railway company were passed on third reading. These two companies are in reality a part of the West Penn Electric company, which is planning a direct traction line from the Monongahela river to the county seat.

Considerable discussion preceded the action of council but there was little opposition to the granting of the franchises. The franchises for the trolley line provide for the building of a line along the main street of the town. It is provided in the franchise that the company must commence work within eight months and must have the line within Bentleyville completed within 20 months while the line to Monongahela must be completed within four years.

Ninety days are given the company for acceptance of the franchise and when the franchise is accepted the company must post \$1,000. Another \$1,000 must be put up when the actual work is started.

Makes Complaint to Police He Was Thrown Out of Store When Wanting to Buy

Alleging that he had been thrown out of a certain store because he wanted to buy a suit of underwear and wanted cheaper goods than the store keepers wanted to sell him, a foreigner appeared at the police station Monday night and asked that the store keepers be arrested. The story told is that the man went to the store and asked for underwear. He was shown something and a price put on it. It is said an argument followed and he claimed he was pitched bodily out on the sidewalk. It is probably that a hearing will be given before Burgess Risbeck.

Dauphin County Court Decides Length of Auditor General's Term

## NOMINATIONS LEGEL

Judge Kunkel in the Dauphin county court Monday decided that the term of Auditor General A. E. Sisson will expire in May, 1913, and that therefore it will be lawful to elect his successor in November of this year.

The test case was brought to determine the effect of the constitutional amendments of 1909 so far as they related to an auditor general. These amendments changed the length of the term of the auditor general from three to four years. The question raised was whether the intention of the electors was to apply the lengthened term to the auditor general when they were approving the amendments.

The court decides there was no presumption that they so intended, but on the contrary the fact that a three-year term of the auditor general then elected would bring about the election of his successor at a time in accordance with the provisions of the constitutional amendments providing for the election of state officers in even numbered years indicated that the voters intended the present term to be three years.

The effect of the decision rendered today is to legalize the nominations of State Senator A. W. Powell of Pittsburg, the Republican nominee for auditor general and Robert E. Creswell of Johnstown, the nominee of the Democratic convention.

The case will be carried up to the Supreme court in order to remove all possible doubt as to the question.

School Board Holds Election of Secretary and Treasurer

## HEAR REPORT OF YEAR

Enrollment Went Up to High Water Mark—Many Employment Certificates Granted

Under the provisions of the new school code the school board held a meeting Monday evening for the purpose of electing a secretary and treasurer for the ensuing year. J. M. Hill was re-elected secretary of the board. Kerfoot W. Daly, cashier of the Bank of Charleroi was elected treasurer. The treasurer's office goes by rotation from bank to bank. The Charleroi Savings and Trust company, or particularly E. W. Hastings, the cashier, was the former treasurer. The First National bank by the schedule will become the depository next June and Cashier R. H. Rush, the cashier treasurer.

By the new school codes school boards in the second, third and fourth classes organize the first of December. The first Monday of July they are expected to hold a meeting and elect their secretary and treasurer. In district of the third and fourth classes in secretary and treasurer may be members of the board. Charleroi constitutes a third class district.

In addition to electing a secretary and treasurer, the school board received the yearly report of Prof. James G. Pentz, superintendent of Schools, and also the report for the final month of the year. Prof. Pentz reported that the total number of days attended by all pupils in the High School was 20,273 and in the grades 191,701. In the schools there were during last term, Prof. Pentz reported, 45 female teachers and four male. The average salary of the female teachers was \$54.80, and the male teachers \$110.55. The average salary of High School teachers was \$97.50 and of the grade teachers \$56.05. The total number of pupils enrolled at the close of the year was 2,063. The percentage of attendance during the year was 96. Prof. Pentz granted 121 employment certificates during the year. Since January 1, 1909, he reported he has granted 361 employment certificates.

BEARING FRUIT.

One of the results of the curb mar-

ket in Charleroi thus far is to stimu-

late an inquiry for land for farming

and gardening purposes on the part

of the people who see the possibilities

in this line. Already a number of peo-

ple have signified their intention of

trying to get a piece of land and en-

gage in gardening on an extensive

scale, and it is probable that some real

estate will change hands with this ob-

ject in view before the season closes.

Already it has been demonstrated

that the people of Charleroi will buy

readily at the curb market if the pro-

duce is there to sell. Thus far there

has not been anywhere near enough

stuff to satisfy the demand. The curb

market idea, however, has been an

eye opener to many people, and it is

readily seen that a good and paying

occupation is open in the way of gar-

dening, where the owner or renter of

a piece of land can realize well on

his efforts. He can apply his work

constantly, and his market place is

provided for him where people will

come to him to buy instead of having

to peddle the stuff from house to

house, a tedious and uncertain pro-

cess.

With the splendid market this town

and community affords and the ease

with which produce can be disposed

of by means of the curb market, there

ought not to be any available land idle

next year. There is a bonanza in

store for the producer who ventures

into new and untried fields, and the

greater variety of products the

greater will be the rewards.

THE PERILS OF MINING.

In olden times when maritime com-

merce was the principal industry

prayers used to be offered in the most

of the churches for those who "go

down to the sea in ships." In this

age of big business developments

there are many industries more per-

ilious, even than navigating the seas,

but few people think anything about

offering special prayers for the safety

of the operatives of any particular

industry.

Coal mining is perhaps one of the

most perilous of modern industries.

there has been a material reduction

in the mortality list. Five years ago

nearly five out of every one thousand

men employed in the mines were

killed. Last year the mortality rate

had been reduced to an average of

nearly four.

While this reduction is slight, it

is showing that the list of killed and

injured can be reduced. It is along

this line that efforts on the part of

the leaders of mine workers are di-

rected, and it is to be expected that

further laws will be enacted that will

make the industry less perilous. In

old times the dangers of the sea

could not be abated, but modern in-

dustry exacts a more ghastly toll in

proportion than did the elements, and

the melancholy part of it is that the

most of it is preventable.

ELECTRIC SPARKS

It is probable that this govern-

ment will give general satisfaction

when there are enough offices to go

around.

A man's political principles will

stand a whole lot of trifling with,

but don't monkey with his political

prejudices.

From now on the office holder will

put in his best ticks to insure his

meal ticket for the next four years.

An optimist has been defined as

the man who, after falling down

stairs gets up and says "I was com-

ing down anyhow."

The word platform is to the

political orator what the word sur-

plus is to the bank cashier—some-

thing to be referred to in an awed tone

of voice.

The best cook is one of the kind

who probably cannot make mayonnaise,

lobster Newburg or croquets.

Married men like to hear them-

selves talk, just the same as bache-

lors, but haven't the chance.

Many people who put on style put

off creditors.

Of course women are admittedly

as good as men and of course there

is nothing they can not do as well

as men, yet just the same the loyal

fans hope they will not want to

pitch for the home team in a close

game.

Some women have the grace to not

only think their husbands members of

a certain political party, but the

whole party. That's during the

honeymoon.

There are a lot of marriages this

year, but, so the brides say, not be-

cause it is leap year.

What chance has a self-respecting

honest steam roller in a Democratic

convention like the one at Baltimore.

There is a slight suspicion some-

times that performers are applauded

because they are through not because

of their ability.

That Flynn-Johnston pugilistic en-

gagement on July 4 will have to go

some to draw enough money to pay

the guarantee.

PICKED UP IN PASSING

"There," said R. L. Barnhart, owner

and manager of the Palace Theatre,

pointing to a picture that was being

exhibited on the screen Monday

evening, "is a mechanical invention

that has caused more law suits and

litigation than any other thing of its

kind."

The appliance in question was a de-

vice used in moving picture machines

—the contrivance that moves the film

before the lenses, holds it here the

exact time required to give the mo-

tion effect, and then moves the next

one up. The picture being shown which

exhibited this device was a film entitled

"How Moving Pictures are Made and

Shown." It was an Edison film and

the pictures showed the great Edison

plant where moving pictures and ma-

chines are manufactured, scenery and

settings prepared and companies pose

for the subjects. It was a most in-

teresting exposition of the great Ed-

ison's laboratory and manufacturing

shown in detail.

Speaking of the device which has

caused so much litigation Mr. Barn-

hart said:

"Infringements on this patent have

been fought through every court from

the lowest to the highest, and Edison,

whose patent it is, has won out in

every case. Today every moving pic-

ture machine in existence has to pay

a royalty on this patent, for none can

operate without it. My machine is

not an Edison machine, yet I pay \$2

a week royalty for the use of that

one small patent as does every other

machine owner. Edison has just se-

cured a reissue of the patent for an-

other 17 years.

"I have seen it authoritatively stat-

ed that Edison's moving picture pa-

tents are his most profitable inven-

tions. From these he derives an enor-

mous and constantly increasing re-

venue. It may be interesting to know

that the moving picture business in

all its details ranks sixth among the

most extensive industries of the world

in the number of people employed,

wages paid and revenue earned."

A young hopeful, aged four years,

of the hill district, has from the time

he could talk repeated that old-time

juvenile prayer after his mother—

every night on going to bed—"Now I

lay me down to sleep." Recently the

mother sought to have the boy com-

mit the prayer to memory and to

enlighten him as to its meaning. She

the Lord his soul to keep." It meant

that he asked God to watch over him

and keep him safe from all harm; and

then when he "prayed the Lord his

soul to take" that meant that he

asked God to take him to heaven if

he died.

"Now, Willie," said the mother,

"I'm going to say the prayer and I

want you to pay strict attention so

that you can say it yourself, and I

want you to remember what it means."

And she repeated the prayer:

"Now I lay me down to sleep;

I pray the Lord my soul to keep;

If I should die before I wake,

I pray the Lord my soul to take."

Willie began bravely, but in trying

to remember the rhyme and meter of

the prayer together with its meaning

as interpreted by his mother, he got

sadly mixed, and this was his ver-

sion:

"Now I lay me down to sleep;

I hope God will take care of me;

If I should wake up before I die,

I hope God will take me to heav-

en."

## EPISCOPALS HIT

### BALL AND WIN

Beat Baptists in First Game of Week by Lopsided Score

By hard hitting and plenty of it the Episcopalists won from the Baptists by the score of 13 to 4 Monday night. The way the Episcopalists banged the horsehide was something to see. The Baptists secured but five bingles yet scored four runs. The game was a mighty good one with the score close up until the fifth inning. During this session the balloon appeared and the Episcopalists got seven runs. Next inning they scored five runs. The Baptists scored their four in two innings, the first and the fifth. Two men got on base one through being hit by the pitcher and the other by a base on balls. John McIlvaine then hit out a home run. Score:

Episcopalists	R	H	P	A	E
Mathers, 2	2	1	2	3	1
Roberts, m	1	2	0	0	0
Cratty, s-c	2	1	1	0	0

## MINCE-PIE FINDS CHAMPION

Winning of Delectable Dessert From Female Seminary Held to Be Libel on Pastry.

Mince pie has endured from generation to generation and is not cast down. It has suffered long from the attacks of critics for whom it is strong meat, but it still is kind to those who love it and whom it loves. It gives and needs strength. We note without despondence the attempt in various New England colleges for girls to give this delectable dish a new bad name and hang it.

"It is ruinous for the complexion," says one preceptress. "And another prates of technicalities of digestion. But at good old Wellesley they have mince-pie three times a year 'for the girls who cannot go home for the holidays,' and there you have the whole case for the libeled pastry in a sentence. Mince pie is the home pie. It spells Thanksgiving and Christmas and a happy New Year and back-to-the-farm and good-for-the-old-folks and all sorts of things that keep together the families in which the nation is great.

Complexions! Why, the country was full of them before any food critic drew the hot air of life. And it will be full of them still when the last foe of mince pie falls under the crust that mother makes. As for the girls' colleges—well, if the higher education is raising a parcel of daughters that cannot stand mince pie, it surely is not bringing up a band of sisters entitled to the ballot.—New York World.

#### His Little Peculiarity.

"One o' de mos' curious things about a fool," said Uncle Eben, "is de way he'll holler and git mad if you don't let him show off his misfortune."

#### Real Optimism.

A real optimist hopes for the best, even when his son marries a chorus girl.

#### Goose an Old Man's Guard.

When traveling along the road from Legars toward Kennelstonhead Cottages, St. Hill, Kelson, I met an old gentleman walking with the assistance of crutches, and a goose following as closely as possible behind him, avers a writer in the Scotsman. I stopped and spoke to the old man and the goose at once took up its position between his leg and the crutch on the side nearest to me. It then proceeded to make as much noise as possible, and assumed all the defiant attitudes imaginable.

On my approaching within a few feet of the old man it at once flew at me, and pecked, or rather bit, viciously at my legs. I tried to keep it at bay by pushing it away with my feet, but that was of no avail, and I had ultimately to strike it over the bill with my walking stick to make it release its hold on my trousers. I found out later that it had bitten a considerable piece of skin off my leg.

The old gentleman informed me that the goose follows him wherever he goes, and during stormy weather when he cannot venture outside it spends the day at the door of his cottage or else near by.

#### A FAIRY TRANSFORMATION

takes place in many a cheerless room when decorated with one or more of the many beautiful wall paper patterns on exhibition at Freeman's. The sun shines brighter, life is pleasanter when your dwelling is cheery and our decorations have driven away many a fit of the blues. See our new styles.

## TWICE-TOLD TESTIMONY

Charlevoi People Are Doing All They Can For Fellow Sufferers.

Charlevoi testimony has been published to prove the merit of Doan's Kidney Pills to others in Charlevoi who suffer from bad backs and kidney ills. Last any sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting we produce confirmed, proof-statements from Charlevoi people saying that the cures they told of years ago were permanent. Here's a Charlevoi case:

ton avenue, Charlevoi, Pa., says: "I gladly confirm all I said in my former statement given for publication in favor of Doan's Kidney Pills. Last summer I used several boxes of this remedy, secured at Piper Bros' Drug Store, when suffering from rheumatic pains and it promptly drove away my trouble. I have often recommended Doan's Kidney Pills and shall continue to do so."

## THOUGHT HIS TIME HAD COME

Imagination Truly Is a Wonderful Thing, as Kansas Man Is Likely to Admit.

Every summer John Fisher, a Liberty grocer, and Frank Cockrell, a retired farmer, maintain a camp at the mouth of Shoal creek on the Missouri river, about 15 miles below Kansas City and four miles south of Liberty.

Last summer they were entertaining, among others, J. D. Taylor, a farmer of near Manola, about 65 miles northwest of Alberta, Canada. The hosts and their guests were grouped around a small camp fire, scantily attired and partaking of fried catfish with relish, when Taylor grabbed at his leg and arose to his feet with a howl that sounded like the siren of the Gunter.

"I'm a grouser, boys," he groaned, "as he hopped around on one leg, gripping the other powerfully with both hands and imploring someone between whiles to get a club and get busy. 'There's a snake in my pants leg as big as my arm and it's squeezing and biting me to death.'"

Fischer grabbed one side of the trousers leg in question and pulled it the other and they ripped with right good will, but no snake appeared. When Taylor was sans pants, however, they took the remnant from his hands, and closely merged with the interior was found the stringy remains of a small frog.

"And that's what imagination will do for you," said Taylor, as he humped up a box and climbed upon it tailor fashion to finish his interrupted session with the fish.—Kansas City Journal.

## NOT DRAWN FROM FLOWERS

Perfumes Today Are Extracted From Almost Everything but Seemingly Natural Source.

There are few perfumes today that cannot be made from chemicals, synthetically, as the chemists call it. Formerly all perfumes were extracted from flowers, fruits, spices, woods or other vegetable and animal substances. The first perfume to be imitated was vanilla, in 1874. Heliotropine followed but obtained by oxidation of a by-product of camphor.

Terpineol is one of the most freely used constituents of perfumes. This is a near relative of turpentine. With this a little oil and aquaortis a chemist can produce a perfume that can scarcely be distinguished from those exhaled by the My of the valley, "Niac and Cape Jessamine, varying according to the proportions in which the chemicals are blended.

Artificial violet is a combination of citral (an essence extracted from lemon oil), indan veranone, or lemon verbenone, with common acetone, a substance very like pyroligneous acid.

No chemist has been able to counterfeits musk, but a synthetic perfume called musk is made from toluene, a by-product of benzine and coal tar. This is changed to a complex carburel, treated with azotic and sulphuric acids, is diluted and sold as musk.

Most of the cheap perfumes are imitations and they are almost always inferior to the flower extracts. So it might properly be said that it is a wise flower that knows its own perfume.

#### Forced to Sacrifice Beard.

The Wisconsin farmer whom Judge Holland condemned, in lieu of a fine which he could not pay, to have his flowing beard cut off, may find consolation in the fact that a similar order deprived a man in New York of long and carefully cultivated whiskers a few days ago. The man is employed in a manufacturing concern where his duties bring him in contact with rapid moving machinery. The proprietor's little son, in a visit to the factory, stood near the machine which the bearded man was operating and asked: "Don't the hair ever get mixed up with the silk?" The operator simply smiled, but the father, realizing a danger, gave the man then and there the option of shave or discharge. He chose the former.

#### Drew the Line at Cats.

To the list of divorces for seemingly trivial causes—such as "cruelty in not taking me out riding," "cruelty in requiring me to sew on buttons," etc., has now been added a divorce granted to a man who charged his wife with "cruelty in keeping cats in the house," thereby preventing him from occupying his favorite chair. On the judge's inquiring, "Why didn't you put the cats out of the house?" the man answered, "My wife is a member of the Society for the Prevention of Cruelty to Animals, and I was afraid she would have me arrested."

#### Guess at Philanthropist's Identity.

John M. Longyear, of Brookline, is now thought by his friends to be possibly the mysterious contributor of \$2,500,000 to "Tech." Henry C. Frick, Thomas A. Edison and Andrew Carnegie are previous guesses. The list bids fair to resemble a directory of philanthropists.

Longyear, who thus has greatness thrust upon him, made his money in ore and timber lands in Michigan and elsewhere in the west.

#### Worry.

"I can remember when you had to work eight hours a day," said the old-time friend.

"Yes," replied Dustin Stax, "things were different. Now I have to worry."

## SCARED THE GARRISON

MOVING PICTURE CAMERA IN MEXICO STARTED PANIC.

Soldiers Thought It a Machine Gun and Were Overjoyed When the American Photographer Made Clear Their Mistake.

An American camera man recently ventured into Mexico to take some pictures of Mexican scenery, together with a parade of a Mexican regiment. Mistaking him for an insurrectionist about to start another revolution by turning a machine gun on them, several hundred Mexican soldiers, comprising the garrison at Tia Juana, broke ranks while on dress parade and ran in every direction for shelter, says Motography.

Officers joined the privates in getting behind buildings and trenches, and the regimental bugler had hardly sounded the call to arms to repel the attack of the supposed invaders when the moving picture man, not thoroughly frightened himself, tucked his machine under one arm and started to run for the boundary line. He had gained the outskirts of the town when a Mexican officer ventured to snatch a look from his hiding place and, seeing the ground clear, ordered a charge with fixed bayonets. It took considerable prodding, however, to get the privates back into the ranks and the military formation.

The frightened operator was overhauled by mounted men, dragged back into town and taken before the commanding officer. The enraged soldiers wanted to make a target out of him then and there, but the officers prevailed upon them to let the regular military law take its course. The moving picture machine was carefully taken apart and searched for explosives. The camera man pleaded with the officers to let him go. He explained to the Mexicans that he was not a filibuster nor a soldier of fortune; that he was only working for a living. He went through a pantomime with the aid of a sheet on the wall to show the soldiers how pictures are taken for the nickelodeons in the United States.

Then a great light burst upon the intelligence of the commander in chief. He rapidly interpreted his discovery to his fellow officers and his privates. The moving picture man stood distrustfully by, not quite sure that he had yet made himself plain.

The soldiers were so overjoyed at the fact that they were to have been sent down into posterity by the moving picture route that the man was ordered to take their picture without fear of interruption. A brief examination, however, convinced the moving picture man that he could never accomplish the fact; but he feared to arouse the ire of the Mexicans, so he went through the motions of taking a real picture, while the soldiers marched back and forth within his range, drilled, fired their bayonets, charged upon imaginary foes, pitched their tents and went through every detail of war life in Mexico.

His arms were aching from turning the crank of his broken machine, and he would have ordinarily used up several miles of film, when the regiment came to attention and the commander stepped to the front and proudly doffed his cap.

That was the end. The picture man was loaded down with cigarettes and cigars and presented with a silk scarf by one of the officers. He refused an invitation to dine and hurried with an escort of honor to the boundary line, the men insisting on carrying his machine for him.

#### Dainty Tea Cakes.

Here are directions for making some dainty cakes for a home tea which are inexpensive and will be found delicious.

Beat two eggs to a froth in a cake bowl, add two cups of granulated sugar, one teaspoonful of vanilla extract, half a nutmeg grated, half a teaspoonful of salt, beat these to a cream, then add half a cupful of butter which is quite soft. Beat this well together with the other ingredients, then add a cupful of sweet milk, stir it well through the mixture, and last add two and a half cupfuls of flour sifted twice with three teaspoonfuls of baking powder and stir the whole to a smooth batter. Slightly butter the inside of your patty pans and put one generous tablespoonful of the cake batter in each patty and bake in a slow oven. This mixture will make over thirty little tea cakes. Cover the top of each with a frosting and put one blanched almond on the center.

#### Doing as the Romans Do.

One Christmas day Joseph II. and Gustavus III, king of Sweden, who had arrived in Rome the previous day, attended high mass at St. Peter's. The behavior of the emperor was particularly decorous, without affectation or hypocrisy. The king at first hesitated about kneeling, and asked the emperor what he should do.

"Do as I do," replied Joseph.

"But I am not of your communion," rejoined the other.

"Well," resumed the emperor, "believe what you will, but, as you came here of your own choice, you should act so as not to scandalize others."

#### Gradual Process.

Crimson Rambler—Taken off yer winter underwear yet, Bill?

Backdoor Bill—Partly! I took off a door-mat yesterday, but I'm still wear-

## He Wouldn't Advertise

Breathes there a man, with soul so dead Who never to himself hath said:

"My trade of late is getting bad, I'll try another eight-inch ad."

If such there be, go mark him well;

For him no bank account shall swell,

No angels watch the golden stair

To welcome home the millionaire

The man who never asks for trade

By local line or ad. displayed.

Cares more for rest than worldly gain,

And patronage but gives him pain,

Tread lightly friends; let no rude sound

Disturb his solitude profound,

Here let him live in calm repose,

Unsought except by men he owes

And when he dies, go plant him deep,

That naught may break his dreamless sleep;

Where no rude clamor may dispel

The quiet that he loved so well.

And when the world may know its loss,

Place on his grave a wreath of moss,

And on the stone above, "Here lies

A chump who wouldn't advertise."

Advertise and the world is with you!

Don't and you'll be alone.

For the world today will never pay

A Cent to the Great Unknown.

W. J. ALLEN, Duluth, Minn.

## Tested the Whole World Over

and through three generations Beecham's Pills are universally looked upon as the best preventive and corrective of disorders of the organs of digestion and elimination ever known. They give speedy relief from the headache, sour stomach, indigestion due to biliousness or constipation.

## BEECHAM'S PILLS

are no experiment. They are too well known for that; and their mild and gentle, but sure action on the bowels, liver, kidneys and stomach, too well approved.

If you are out of sorts take at once this famous remedy and you will endorse the good opinion of thousands—you will know why Beecham's Pills so deservedly

## Have Unequaled Reputation

Sold everywhere, 10c., 25c. The directions with every box point out the road to health.

# Publicity!

## THE PRIMER OF SUCCESS

Do you want a position?

Do you want a girl?

Do you want to rent your furnished room?

Do you want to sell your house?

Do you want to sell your eggs, poultry or live stock?

Have you lost anything?

Have you anything to trade?

Do you want to sell your piano?

There are many who want to do one or the other of these things. Most of them don't know how to go about it. If they could only tell the people what they want they would be all right. If they could only let the people know without disclosing their identity that might be better still.

If you want to buy, sell or secure any of the above, or if you want to trade anything, did it ever occur to you that the best thing in the world to do is to use the Classified Columns of the Mail.

Why do we give you this advice? To make business for ourselves? Certainly! To help you? Just as certainly! We are the medium between you and what you want. You just place a cent-a-word advertisement with us and we spread this advertisement before five thousand people Every Day. That is the market with which we bring you into touch. Isn't the advantage of being placed in touch with 5,000 people worth this insignificant sum?

Try it, and you will reap the benefit of your advertisement a thousand fold

## One Half Off All Ladies' Hats

You all want pretty things for the Fourth and we are going to help you get them by cutting the price of all Ladies' Hats in two.

Any trimmed or untrimmed hat in our store goes to you at one-half price. Just think of the saving on these hats--hats that were extra values at from \$2.75 to \$10.50--at HALF PRICE.

Get one of these hats while there is an ample assortment and choosing is good

We Give S. & H. Stamps

**J.W. Berryman & Son**

## EPISCOPALS HIT BALL AND WIN

Beat Baptists in First Game of Week by Lopsided Score

By hard hitting and plenty of it the Episcopalists won from the Baptists by the score of 13 to 4 Monday night. The way the Episcopalists banged the horseshoe was something for the Baptists secured but five bingles yet scored four runs. The game was a mighty good one with the score close up until the fifth inning. During this session the balloon appeared and the Episcopalists got seven runs. Next inning they secured five runs. The Baptists scored their four in two innings, the first and the fifth. Two men got on base one through being hit by the pitcher and the other by a base on balls. John McVaine then hit out a home run. Score:

Episcopalists	R	H	P	A	E
Mathers, 2	2	1	2	3	1
Roberts, m	1	2	0	0	0
Cratty, s-c	2	1	1	0	0
